Paul Robitaille

Chairman

Gorham, NH Planning Board

Dear Mr. Robitaille & Members of the Planning Board,

We are writing you this letter in support, of the planned move into the former Burger King building of Northeast Snowmobile and ATV Rentals. This move is going to benefit the Main Street of Gorham substantially. We feel that moving the ATV rentals to this location will alleviate any parking issues and help with traffic flow for the town as well as their customers.

We have found the renters to be kind and respectful to our 24 plus team members that we employ. These visitors are the reason some of the business can stay open. We all know that having empty buildings on main street is not good for any town.

Northeast Snowmobile and ATV Rentals are a big supporter of our community in many ways. Most of all, by investing in the activities they offer, this draws the much-needed tourism to the area.

In closing, we are asking you to please support the move of this established business, into the building they have recently purchased. Without doing so could be detrimental to our town.

Thank you for your consideration.

Jack & Corinne Jennings
