Subject: RE: Northeast Snowmobile & ATV Rentals

Dear Michelle,

I am writing in support of Northeast Snowmobile and ATV Rentals. I am aware that recently they purchased the old Burger King Building on Main Street, and I think this is a great idea, it appears to be a much better location for their ATV Rentals. With the ample parking around the building, off the road, this would make a much better location than the old bank building. Plus it is another vacant building occupied!

Terry McGillivray indicated to me earlier this year, that the old bank building location would just be used for repairs. Last summer there was a lot of ATV parking there, that spilled over on to Main Street causing congestion in that area on busy days during the summer. Moving their rental operations to the Burger King lot would help to alleviate the congestion on Main Street and give them more room off the main highway to conduct a safer and more orderly rental operation.

Northeast Snowmobile and ATV Rentals has been an asset to Gorham businesses bringing people to stay in motels and eat in restaurants. They have been a faithful supporter of the Gorham Tourism advertising for at least 6 years since they came to town. They also employ around 20 or 30 people! I hope they will be allowed to continue to be an asset to Gorham, and that the town will accommodate them in their efforts to do this in a less disruptive manner.

Thank you,

Debbie
